The General Pension Bill Will Be Called Up in the House,

To Be Followed by the General Deficiency and the Bankruptey Bills—The Naval Appropriation Bill Will Probably Be Disposed of in the Senate.

Washington, April 20.—Monday is "suspension day" in the house—that is to say a day on which it is in order to take up bills for immediate passage under suspension of the rules. That order will be followed by the general pension bill reported on Friday last. By the terms of this bill, discontinuances or reductions of pensions, except for fraud or error, or recovery from disabilities, are made unlawful. Chairman Pickler estimates that the restoration of pension and additional expenditures authorized by the bill ary investigation from a labor stand-will amount to two or three millions a point is in good shape, and it is expect-

Mr. Cannon will afterwards call up the general deficiency bill. Wednesday and Thursday have been set aside for a discussion of the bankruptcy bill upon which a vote is to be taken by the house on Friday.

In the senate an effort will probably be made to antagonize Mr. Peffer's pending bond purchase investigation resolution by calling up the Indiana bill. The naval appropriation bill has been ready for consideration for ten days, and Mr. Hale is very anxious to dispose of it. Mr. Gorman is credited with an intention to attack the provision for four new battle ships. He proposes to reduce this number to two and to substitute for the battle ships stricken out small sized gunboats for use in rivers and shallow waters.
